

"Clean Label" Syrups

In almost every store, Crazy Mocha uses "clean label" Monin products for our syrups and sauces.

According to a representative from Monin, "clean label" simply means that a product contains no artificial ingredients, including colors, preservatives, or flavors.

Syrups For Everyone

Using syrups with no artificial ingredients means that nothing in the syrup is made from something inedible, which can be harmful for your body.

Because no animal products are used to make Monin syrups, they are considered vegan. These syrups are also all gluten-free, halal, and kosher.
